PROFILE

Borisfen-S

The "Borisfen-S" studio was founded in 1990 by producer Victor Sleptsov, together with a group of outstanding Ukrainian directors, animators and the most qualified experts in the field of animation production.

First, the Ukrainian — American studio "REF-Borisfen" was founded in 1991, where animation for "Peter Pen" series (Fox Television) was produced, as well as other animation series for many American TV-channels.

The Ukrainian — French animation company "Borisfen-Lutece" was founded on creative basis of "Borisfen-S" in 1994, and became one of the largest producers of animation (about 150 minutes per month) in the world.

Since 1995, the studio "Borisfen-S" worked on various projects in different areas of cinematography.

Our works were awarded many times on various festivals for professionalism, idea, originality and for other outstanding qualities. We are glad to offer some examples of our production:
